SVENSK DEMOGRAFISK FÖRENING

The Swedish Demographic Association

The Swedish Demographic Association was established in 1970 with the purpose to promote knowledge regarding the importance of demographic issues, both from a historical and contemporary perspective. Moreover, the association aims to promote the usefulness of demographic methods in distinct areas of social life. Additionally, the association promotes interaction between demographic researchers and professionals active in the field, which is currently particularly important due to the upsurge of interest in demography.

Through SDA you will find others who share your interest for demographic research and you will expand your network.

Welcome to SDA!

The Swedish Demographic Association (SDA) aims to increase the interest in demographic research among different groups in Sweden. To do so, SDA regularly arranges seminars and lectures throughout the country. SDA also keeps our members up to date with current information regarding conferences, seminars and employment opportunities, etc., both via our homepage and e-mail.

SDA is a member of the Nordic Demographic Association, which also includes organizations from Denmark, Finland, and Norway. Every other year the Nordic Demographic Association hosts a symposium where researchers and other demographic professionals meet to discuss demographic issues from a Nordic perspective.

SDA is an organization for those who work with demographic questions as well as for those in the general public who are interested in demographic issues.

Feel free to learn more about us at www.demografi.se. Here you will find information concerning conferences, seminars, current PhD dissertations in demography, and other points of interest.

If you, or your organization, would like to become a member, please transfer **100 sek/year** (individual member) or **2000 sek/year** (supporting member) to PlusGiro account number 15 81 07-3. Don't forget to include your name, address and e-mail address with your payment.
